

FAQs

How do the rewind powers work?

Rewinding is one of the major features in Life is Strange. It gives you the ability to let Max Caulfield rewind time, undoing any of her actions, as well as letting you keep items you previously collected, and lets you teleport from where you last used it. In fact, this is used in a lot of the puzzles in the game to help collect items you previously would not have been able to collect, as well as skip previously impassable areas via teleporting.

What is collectible mode?

Collectible mode allows you to revisit past areas that you have progressed through. This way it gives you the option of collecting anything you may have missed while you were playing the game normally. This mode is special in that it gives you the ability to skip dialogue and the decisions you make in this mode do not carry over to your save, so you can collect all the collectibles to your hearts content!

Puzzle notes

Episode 1

There's a girl being shot in the Bathroom, how do I save her?

Have a look at your surroundings, is there anything you can use to distract the attacker? There's a fire alarm, can you use something to set it off? That Trolley looks like it can be moved and you can collect that hammer, remember that your rewind powers allow you to keep items you have collected.

How do I Get past Victoria?

First of all try talking to Victoria, you soon find out that won't work, so go turn on the sprinkler in the utility cupboard, once you've done that wait for Samuel to pick up paint bucket and hang it up, then Rewind, Tamper with paint bucket and Speak to Victoria again.
