Uncheck box to have game continue running even when game window is not the active window.

<Warning!>

Timers (see screenshot below) will continue to run even if the box is checked.

Health and Safety Notice

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Immediately stop playing and consult a doctor if you experience any symptoms such as lightheadedness, disorientation, or twitching.
